BY THE RIVER

On the banks of the Douro River, an isolated residence with contemporary architecture is born, which, like the main villa, is lost among the vegetation that surrounds the area, almost as if it had always been one with nature.

With the hustle and bustle of everyday life, there are many times when all we want is a place, isolated from the rest of the world, where we can breathe in the pure air of nature while meditating and reconnecting with ourselves.

The inviting pool area, where you can enjoy a moment alone while watching the sun sink between the hills at the end of a hot summer's day, is lost in the picturesque landscape of the river, as if they were one.

At the entry hall, there's a narrow utility area with a console so you can put your house keys and other accessories that you don't feel the need to take inside.

Landform Console Table

This mirror, strategically placed at the entrance, also serves to maximise the space of this entrance and also to bring more light into this space by reflecting the exterior of this residence.

The first floor houses the living room, kitchen and dining area, where natural light penetrates through the large floor-to-ceiling windows.

The brownish tones of the wood in the pieces of furniture in this living room contrast with the simple white of the modular sofa that makes up the decoration of this space.

Set composed by Ripa, Margem & Escarpa Coffee Tables

Here, the succession of colours and materials - including stone for the floor and walls as well as natural wood - generates balanced contrasts that skilfully create a modern atmosphere.

A soft and cosy chaise longue is the definition of comfort. There's no better way to rest your feet at the end of the day for a well-deserved moment alone.

Margem Chaise Longue

Toro Side Table III & Toro Side Table II

Margem Low Console Table

The combination of colours of the different materials – on the walls, furniture and textiles – recreate the feeling of being in a forest: the white of the stone reminds us of wild flowers, the soft green of the moss and the various shades of wood of trees.

With wallpaper that pays homage to the beauty of imperfect marble shapes, this dining room is perfect for a gathering of friends at the table, with a privileged view over the Douro River.

This table, with its unique geometry, ditches with the ordinary with a brass accent, making this piece of furniture unique and distinctive.

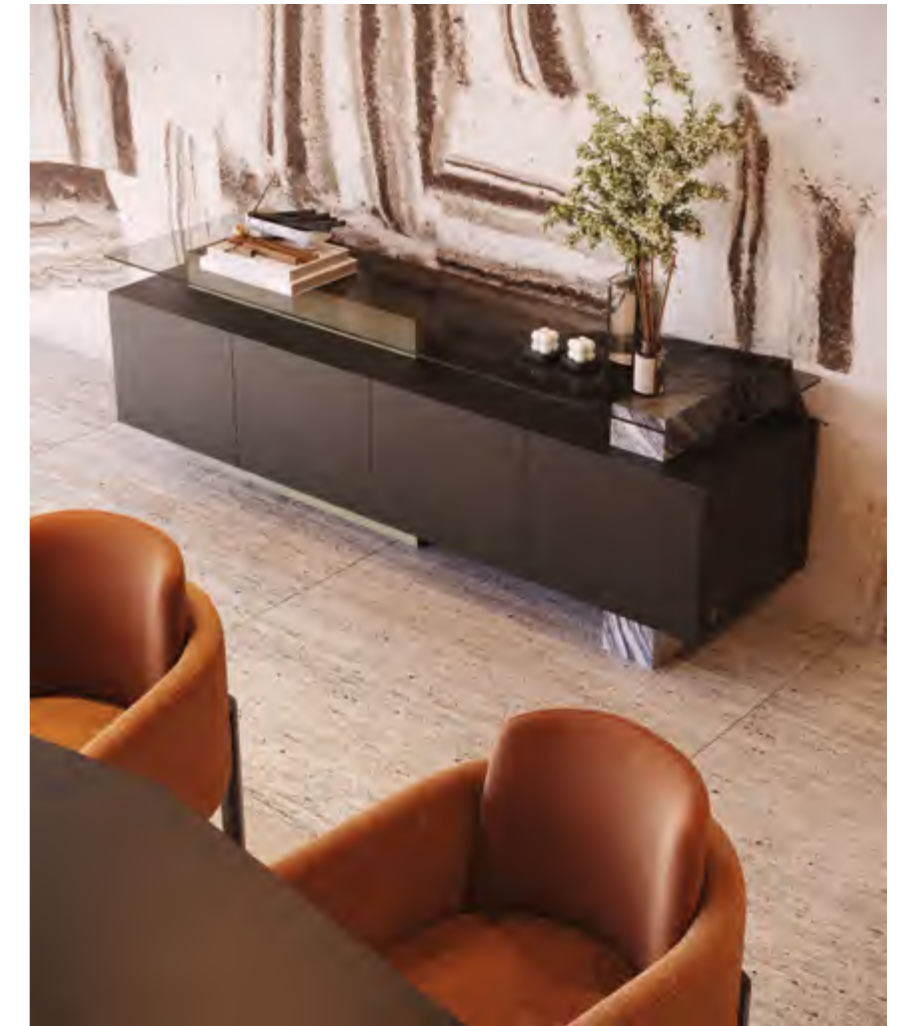

His Dining Chair

Escarpa Dining Table

Crafted with an eye for detail, this sideboard seamlessly blends traditional elegance with modern design, creating a sleek and refined aesthetic.

Toro Sideboard

The long, sleek dining table in the centre of the room is the heart of the space. As well as being bold and full of charisma, this space is both cosy and inviting.

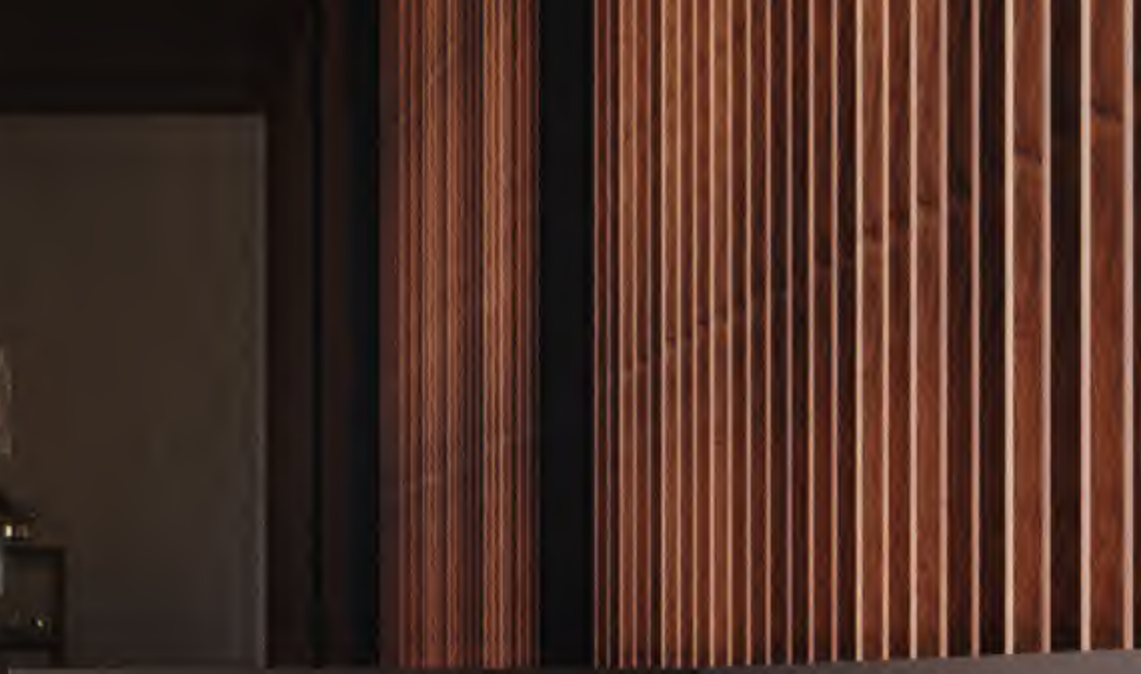

Adjacent to the dining room is the kitchen - where the courses you will serve to your guests will be prepared with the best local produce.

Made to measure, this kitchen, in addition to the imposing marble island in its centre, also has a wine cellar to accommodate the best wines produced in this wine-growing region that is so well known beyond borders.

Even on vacation, the need to hold a small meeting with work teams can sometimes arise. As you climb the stairs to the second floor, an impressive office awaits you on your left.

Escarpa Desk

With an executive-style desk with unique lines and a custom-made bookcase so you can display your book collection, this is the ideal place to express your creativity.

Kensigton Chair

Her Coffee Table

Ripa Armchair With Headrest

A modern-style space incorporates natural materials, practical storage, and functional furniture. Bright, airy, and above all, organised, this space allows for productivity and fosters inspiration.

Inspired by this individuality, the wallpaper applied to the room is like a fingerprint, unique and truly yours.

Margem Bed (Headboard Panel Included)

Margem Side Table

Margem Night Table

This is the space that, at the end of the day, will be ready to welcome you with the greatest comfort so that you can have your well-deserved rest.

Margem Bench

Foz Side Table I & Foz Side Table II

Margem Swivel Armchair

With its neutral colour palette and minimalist aesthetic, this room will take you to a dream world you'll never want to leave.

Near the suite, a modern style bathroom perfect for a large space like this. It's a cosy space, in earthy colours, where everything is organised.

The combination of soft textiles and modern lines creates a feeling of tranquillity for all the senses, to enjoy the mornings and evenings.
